A LETTER FROM THE PRESIDENT

Welcome to Global University!

All of us here at Global are pleased to learn of your interest in advancing your training. We are delighted that you are seeking to prepare yourself for service in God's harvest field. Our catalog provides information concerning who we are, our mission, history, policies, and procedures, as well as our various plans of study. We trust you will identify a program of study to help you prepare for God's call on your life. Feel free to contact us with any questions you may have.

A unique aspect of our program is the emphasis on applied learning and ministry through our service learning requirement (SLR). This requirement allows learners to move more rapidly from theory to practical application of what they are learning. In other words, learners benefit from the integration of academic rigor with practical application throughout their studies.

Global University is composed of five schools providing a seamless approach to study, ranging in academic level from certificates (initial evangelism and discipleship courses) through graduate degrees. The five schools are School for Evangelism and Discipleship, Berean School of the Bible (offering adult continuing education courses to equip people for church leadership), School for Ministry Development (offering an Associate of Arts in Church Ministry that fulfills the educational requirements for credentialing with the General Council of the Assemblies of God through the ordained minister level), Undergraduate School of Bible and Theology (offering certificates and diplomas and associate of arts and bachelor of arts degrees), and Graduate School of Theology (offering master of arts, master of divinity, and doctor of ministry degrees). Catalogs for each school are available on our website at www.globaluniversity.edu.

Global University's learners benefit not only from increased knowledge through studying course content but also from spiritual growth and increased discipline. Our instructional design helps them gain skills for a lifetime of learning, service, and ministry. Students and alumni fill positions of ministry as teachers, pastors, and missionaries. Others serve as local, district, and national church leaders. They actively work in both open and sensitive locations, fulfilling God's call on their lives to impact eternity where they are and wherever God leads them.

When studying with Global University, you will not be studying alone. Instead, you will join students studying in literally every time zone of the world. We operate through a worldwide network of more than 230 offices serving 500,000 students. We are committed to equipping people for service in churches, schools, and other ministries. As you study, rest assured our extensive university stands ready to assist you in any way we can.

God bless!

Gary L. Seevers Jr., PhD

President

A LETTER FROM THE PROVOST

Greetings from the International Office of Global University!

I enjoy the rich pleasure of serving as the Chief Academic Officer for the global programs of the university. During my time serving the university, I have come to appreciate both the diversity and the unity that exists within the Global University family. Every context presents unique challenges and brings opportunities to the task of teaching and learning. As I meet our Global students and alumni, I am impressed with their commitment to excellence in ministry in all cultural situations. In these effective ministries and leaders, one sees the intersection of God's call, their commitment, and a Global University education. The results are astounding: people are saved, churches are started, parachurch ministries are established, and bodies are healed. The Lord operates through thousands of men and women who have come through Global University's programs.

Global University allows you to start wherever you are in your own educational journey and pursue a broad range of learning goals. Each of the five schools of Global University provide opportunity for growth as a follower of Christ and as a Christian leader. Do you want foundational instruction as a follower of Christ and a Christian leader in training? The School for Evangelism and Discipleship's Christian Life and Christian Service series of courses would benefit you. Do you want to study Scripture for a ministerial career, a lay leadership role in your church, or your own spiritual enrichment? The Berean School of the Bible's adult continuing education courses and programs will serve you well. If you plan to seek ministerial credentials with the Assemblies of God, take a look at the School for Ministry Development, our newest school. Do you want an accredited undergraduate certificate, diploma, associate of arts degree, or bachelor of arts degree? Check out the programs offered by the Undergraduate School of Bible and Theology. Are you prepared for advanced studies? The Graduate School of Theology offers master of arts degrees, a master of divinity degree, and a doctor of ministry degree. Global is one university with five schools, so you will have a wide range of options from which to choose. Whichever program you select, you can be sure it will integrate faith and learning from a Pentecostal, evangelical perspective.

Our name—Global University—accurately describes us as a worldwide distance-learning school. Our regional accreditation with the Higher Learning Commission assures you of a quality education. As you enter studies with Global University, you join a student body in every time zone and nearly every country of the world. You can study where and when you want at extremely affordable costs. You will have access to faculty through a variety of means, and our online library resources provide the opportunity to investigate a subject as deeply as you wish.

Welcome to the Global University community. We are students, faculty, staff, and administrators who are all involved in "impacting eternity by reaching the lost and training the found—everywhere."

May God's favor be with you,

David L. De Garmo, DMin
Provost

A LETTER FROM THE DEAN

Welcome to the family and student body of Global University. It is our desire to assist you in being equipped with the knowledge necessary for faithful service in the worldwide church of the Lord Jesus Christ. All our courses are based on the Word of God and God's mission, our *missio Dei*, to impact eternity by reaching the lost and training the found—everywhere.

Global University reaches around the world in numerous languages. Most of our students are already engaged in evangelism, preaching, teaching, and other missionary activities. Our goal is to provide training that will enhance these ministries. This is the reason Global University engages authors of courses who have a depth of experience and high academic qualifications. Great care is given in the selection of the courses for our curricula. We also endeavor to write from a cross-cultural perspective.

The Undergraduate School of Bible and Theology offers degree programs in Bible and theology, Christian education, and intercultural studies. We also offer a minor in pastoral counseling. For qualified students living outside the United States and Canada, the school offers a three-year (90-credit) bachelor's degree program in the nations where such a program is acceptable.

Our faculty and staff are ready to assist you by mail, internet, or telephone. Each faculty member has been carefully and prayerfully chosen, not only for his or her academic training and ministerial experience but also for sensitivity to the Holy Spirit. Many faculty members have served in ministry positions in different nations of the world.

We are glad you are part of our Global University family!

Sincerely,

Kevin Folk, EdD

Dean, Undergraduate School of Bible and Theology

GENERAL INFORMATION

Global University (GU) utilizes tools of educational technology to expand the resources of the church. GU courses are applicable for distance-learning instruction, classrooms, learning groups, and individual study. Courses are developed with the help of qualified writers from many nations and distributed around the world in many languages. This contributes to fulfilling GU's motto: "Impacting eternity by winning the lost and training the found—everywhere!"

Mission

Global University is a Christian university in the Pentecostal tradition that:

- integrates education and service through a worldwide network for student support.
- provides access to ministerial training from adult continuing education to the graduate level.
- produces curricular materials in multiple languages.
- serves the local church and Christian community through evangelism, discipleship, and leadership training via nonresidential distributed learning methods.

History

Global University has a distinguished heritage spanning seven decades and encompassing the achievements of two distance-learning institutions: ICI and Berean University.

Global University now has five schools: (1) School for Evangelism and Discipleship, (2) Berean School of the Bible, (3) School for Ministry Development, (4) Undergraduate School of Bible and Theology, and (5) Graduate School of Theology. Students worldwide enroll in all levels of study. Global University works with Assemblies of God World Missions, US Missions, and other divisions of the General Council.

Doctrinal Statement

The doctrinal position of Global University is expressed in the following statement of faith. We believe:

- the Bible is the inspired and only infallible and authoritative written Word of God (2 Timothy 3:16).
- there is only one true God, revealed in three persons: Father, Son, and Holy Spirit (commonly known as the Trinity) (Deuteronomy 6:4; Matthew 28:19).
- in the deity of our Lord Jesus Christ, in His virgin birth, in His sinless life, in His miracles, in His vicarious and atoning death, in His bodily resurrection, in His ascension to the right hand of the Father, in His personal, future return to this earth in power and glory to rule a thousand years (John 1:1).
- in the Blessed Hope—when Jesus raptures His Church prior to His return to earth (the second coming). At this future moment in time all believers who have died will rise from their graves and will meet the Lord in the air, and Christians who are alive will be caught up with them, to be with the Lord forever (Titus 2:13; 1 Thessalonians 4:17).
- every person can have restored fellowship with God through salvation (trusting Christ, through faith and repentance, to be our personal Savior) (John 14:6).
- regeneration by the Holy Spirit is absolutely essential for personal salvation (Titus 3:5).
- in water baptism by immersion and Holy Communion (Matthew 28:19).
- divine healing of the sick is a privilege for Christians today and is provided for in Christ's atonement (His sacrificial death on the cross for our sins) (1 Peter 2:24).
- the baptism in the Holy Spirit is a special experience following salvation that empowers believers for witnessing and effective service, just as it did in New Testament times (Acts 2:4).
- sanctification initially occurs at salvation and is not only a declaration that a believer is holy, but also a progressive lifelong process of separating from evil as believers continually draw closer to God and become more Christlike (Galatians 5:16–25).
- in the resurrection of both the saved and the lost, the one to everlasting life and the other to everlasting damnation (Revelation 20:11–15).

- in the church, which is the body of Christ, and its mission to be the agency of God to evangelize the world, worship God, build the body of Christ, and demonstrate God's love and compassion (Mark 16:15–16; 1 Corinthians 12:13; 1 Corinthians 14:2–3; Psalm 112:9).
- in a divinely called and scripturally ordained ministry for the fourfold mission of leading the church: reaching, planting, training, and serving.

Regional Coordinators and Network Representatives

Global University operates worldwide through a network of regional offices that assist network offices. Regional coordinators and Network representatives promote, supervise, and coordinate the work of the university within designated areas assigned by the Global University Board of Administration. They, along with the network office staff, encourage students to pursue and achieve academic excellence.

The Global University Board of Administration and the regional coordinators form the Global Leadership Council. This

council, with the assistance of the International Office staff, meets biennially to review past achievements and develop procedures, goals, and strategies to promote continued improvement and growth.

University Faculty

Individuals who serve Global University as faculty are included in the following two categories:

Resident Faculty

Global University resident faculty are those academically qualified individuals serving at the International Office whose activities consist primarily of writing, developing, and facilitating courses.

Adjunct Faculty

Adjunct faculty are academically qualified individuals throughout the Global University network who periodically write, facilitate, and evaluate Global University courses in field settings or serve as tutors for students studying independently with the university. Many hold doctorates in their fields, and all hold at least a master's degree. Those who serve as faculty for the Graduate School of Theology hold an earned doctoral or other terminal degree.

UNIVERSITY STANDARDS

Basic Standards of Academic Integrity

Registration at Global University requires adherence to the university's standards of academic integrity. Many of these standards may be intuitively understood and are not listed exhaustively; the following examples represent some basic types of behavior that are unacceptable:

1. Cheating: (a) using unauthorized notes, aids, or information when taking an examination; (b) submitting work done by someone else as your own; (c) copying or paraphrasing someone else's work and submitting it as your own.
2. Plagiarizing: submitting someone else's work, claiming it as your own, or neglecting to give appropriate documentation when using any kind of reference material. Plagiarism, whether purposeful or unintentional, includes copying or paraphrasing materials from a study guide, textbook, or any other published or unpublished source. Words, thoughts, or ideas taken from any source must be properly documented according to the school's particular *Global University Form and Style Guide*.
3. Fabricating: falsifying or inventing any information, data, or citation.
4. Obtaining an unfair advantage: (a) stealing, reproducing, circulating, or otherwise gaining access to examination materials prior to the time authorized by the instructor or examination supervisor; (b) unauthorized collaboration on an academic assignment; (c) retaining, possessing, using, or circulating previously given examination materials where those materials clearly indicate they are to be returned to the examination supervisor or to the Global University offices at the conclusion of the examination.

AI and Its Role in Global University's Degree Programs

Artificial intelligence technology is developing very rapidly and offers many exciting and enticing opportunities to students that can save time and effort in completing assigned academic work. However, most of the contemplated uses of AI technology to complete academic work actually undermines the very purpose and value of education and prevents the development of scholarship skills and the acquisition of knowledge. The misuse of AI technology, therefore, threatens both the legitimacy of education itself as we know it and the competence of graduates when they leave school. Therefore, the following policy is adopted as a first version by Global University regarding the use of generative Artificial Intelligence software, such as LLMs (e.g., ChatGBT, PaLM API and MakerSuit):

1. Using any AI LLM to create or improve content for any academic assignment is forbidden without prior written

approval from the faculty facilitating the related course.

2. Faculty may grant written approval for AI LLM use in response to a written request submitted by a student, if the request includes
 - a. Identification of the course and assignment for which the AI LLM will be used
 - b. A detailed description of how the AI LLM will be used, including the anticipated results of this use and how it will be integrated into fulfilling the assignment's requirements
 - c. A description of how any information acquired through generative AI will be verified
 - d. An explanation of how AI LLM use will enhance the learning experience and fulfill learning objectives in an academically legitimate way
3. Unapproved use of AI software in completing academic assignments will be considered misuse and will result in a failing grade for that assignment.
4. Faculty are instructed to disapprove all use of AI software unless a convincing and well informed rationale is presented by the student regarding the educational value of its limited use.
5. This policy is a first iteration and will be revised as AI technology continues to develop along with its potential use and misuse in the educational environment.

Disciplinary action for not maintaining standards of academic integrity range from lowering a grade for a paper to dismissal from the program, depending on the severity of the offense.

Code of Conduct

Global University is a Christian educational institution aiming to equip students to fulfill God's calling on their lives. Christian conduct is expected. While Global University reaches many cultures around the world, it is understood that some practices acceptable in one culture may not be acceptable in another.

As Christians we look to the Scripture to guide our conduct. Students are expected to conduct themselves according to biblical principles of behavior. Examples of such principles are found in Romans 12:9–21; Galatians 5:22–23; and Ephesians 4:1–3, 25–32. The Code of Conduct also applies to verbal and written communication with Global University representatives, faculty, staff, and students. Furthermore, it extends to all electronic communication, including threaded discussions and email with faculty and students.

Violation of the Code of Conduct may result in disciplinary action, including dismissal from the program. Global University also wants each student to be aware of our Statement on Marriage, Human Sexuality, and Gender Identity that can be viewed at <https://globaluniversity.edu/university-standards/>.

Disability and Academic Accommodations

Global University is committed to the provision of reasonable accommodations for students with disabilities, as defined in the Americans with Disabilities Act, Section 504 of the Rehabilitation Act, and state and local requirements. Students who qualify for accommodations are required to submit appropriate documentation with the Student Success Center. Your request will be considered if it:

- Is based on documentation that meets GU guidelines.
- Does not compromise essential requirements of your course or program.
- Does not impose financial or administrative burden upon GU beyond that which is deemed reasonable.

Submit your request to success@globaluniversity.edu. The Academic Success team will follow up with you to gather all required documentation. The university's director for the Student Success Center and the dean of the school will review the submitted documentation. You will be notified via email if your request is granted or denied within 30 days of receipt of all required documentation. If you are denied services, you may file an appeal within 30 days of the decision.

Due Process of Student Rights

In all cases involving academic dishonesty, the student charged or suspected shall, at a minimum, be accorded the following rights:

1. Prompt investigation of all charges of academic dishonesty, to be conducted, insofar as possible, in a manner that prevents public disclosure of the student's identity. Such investigation may include informal review and discussion with an official of the school prior to bringing a charge, provided that such review does not compromise the rights of the student in the formal process.
2. Reasonable written notice of the facts and evidence underlying the charge of academic dishonesty and of the principle(s) of academic integrity said to have been violated.
3. Reasonable written notice of the procedure by which the accuracy of the charge will be determined.
4. Reasonable time, if requested, within which to prepare a response to the charge.
5. A hearing or meeting at which the student involved may be heard and the accuracy of the charge determined by a neutral decision maker.
6. Review of an adverse initial determination, if requested, by an appeals committee to whom the student has access in person. Generally, implementation of sanctions will be suspended until all appeals made by the student have been exhausted.
7. Final review of an unsuccessful appeal, if requested, by the president or an advisory committee designated by the president.

Policy for Filing Student Complaints

Global University assures the public that its philosophy is to be responsive to any student complaint. Historically, any complaints received have been resolved to the student's satisfaction. A student seeking to file a complaint or grievance should follow the steps outlined under "Tracking and Addressing Student Complaints." Global University will do everything possible to resolve the complaint expeditiously. If the student wants to contact higher authorities, he or she may do so at the state and accrediting agency levels, as described below.

The Missouri Department of Higher Education (MDHE) serves as a clearinghouse for postsecondary student complaints. The MDHE complaint policy contains information and instructions for filing a formal complaint. The policy provides that a student seeking to file a complaint with the department must first exhaust all formal and informal avenues provided by the institution to resolve disputes. The MDHE complaint policy can be accessed at <http://dhe.mo.gov/documents/POLICYONCOMPLAINTRESOLUTION.pdf>.

Global University's regional accrediting agency, the Higher Learning Commission (HLC), can also receive student complaints. Information is available at: <https://www.hlcommission.org/Student-Resources/complaints.html>.

The HLC expects complaints and grievances to be first resolved at the institution level. Complaints should only be directed to the HLC if they are deemed to affect an institution's accreditation.

Global University has been approved as a participating institution in the National Council for State Authorization Reciprocity Agreements (NC-SARA). If, after following the sequence referred to above, a complaint is not resolved to the student's satisfaction, and if the state in which they live is a SARA member state (go to www.NC-SARA.org, click on "states"), they may appeal to the portal agency of their state (see <http://nc-sara.org/content/state-portal-agency-contacts>). The SARA complaint process can be found in the SARA Policies and Standards at <https://nc-sara.org/student-complaints-process>.

Tracking and Addressing Student Complaints

Global University takes complaints and grievances seriously. The Student Services Department of GU's Academic Affairs Office maintains and monitors a complaint or grievance file. Complaints received usually concern two categories: (1) course content, or (2) the course delivery and support system.

- Complaints relating to course content are referred to the University Materials Development (UMD) Department and to the course professor. A student representative will contact the student with an answer to the student's question(s) or a solution to the student's problem.

- Complaints regarding the delivery and support system are referred to the Student Services Department. A student representative will contact the student to resolve the difficulty. In some cases, this prompts the creation of new policies or procedures to improve the delivery system.

In more difficult or complex situations, especially those problems spanning more than one department, the complaint is referred to the provost. As necessary, the Academic Affairs Committee will also become involved to resolve student complaints in a timely and satisfactory manner.

A student can file a grievance with Global University by choosing any one of the following contacts:

1. A student may contact a Global University faculty member or network office staff member by email, phone, fax, post/mail, or in person. Often, problems are easily resolved at this level.
2. A student may contact the Student Services Department of Global University by email, phone, fax, post/mail, or in person. Student Services personnel are trained to resolve student concerns.
3. A student may contact any administrator of Global University by email, phone, fax, post/mail, or in person. In these cases, the matter typically requires a period of investigation in order to be resolved.

Once a concern, complaint, or grievance is received, every effort will be made to resolve the issue quickly. Should a student not be satisfied with the resolution, they may appeal the decision to the International Office of Global University, directly to the Provost's Office. Should a student not be satisfied with the resolution, the student can contact the Provost's Office and request that the issue be addressed by the Global University Academic Affairs Committee. A decision by the Academic Affairs Committee will be deemed final.

Notification of Rights Under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their educational records. These rights include:

1. The right to inspect and review education records within 45 days of the day Global University receives a request for access. Students should submit to the registrar a written request that identifies the record(s) they wish to inspect. The registrar will make arrangements for access and notify students of the time and place the records may be inspected. In place of inspecting the record(s), students may request that records be copied and mailed to them. In this case, students will pay postage and a copy fee of 15 cents (USD) per page.
2. The right to request the amendment of education records students believe are inaccurate or misleading. Students may ask the university to amend a record they believe is

inaccurate or misleading. They must write to the registrar, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested, the university will notify students of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to students when they are notified of the right to a hearing.

3. The right to request in writing that certain directory information only be disclosed with the student's written consent. Unless otherwise requested, directory information such as the student's name, mailing address, dates of attendance, enrollment status, graduation status, and other institutions attended may be released without written consent. Non-directory information such as student ID number, Social Security number, date of birth, email address, phone number, and grades may only be released with the student's written consent except where FERPA authorizes disclosure without consent. Exceptions include disclosure to federal, state, and local authorities as well as school officials with legitimate educational interest. A school official is a person employed by the university in an administrative, supervisory, academic, research, or support staff position; a person or company with whom the university has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill their professional responsibility.

The student has the right to file a complaint with the US Department of Education concerning alleged failures by GU to comply with the requirements of FERPA. Contact information for the office that administers FERPA is as follows: Family Policy Compliance Office; Department of Education Building; 400 Maryland Avenue, SW; Washington, DC 20202-5920; Phone: 1-800-USA-LEARN (1-800-872-5327).

INSTRUCTIONAL TECHNOLOGY AND RESOURCES

Learning with Technology

Global University prioritizes accessibility for all students, regardless of their available technological resources, and therefore offers courses both in print and via the internet and other electronic media. Students with technology and internet access may submit assignments electronically and take proctored exams online. Many courses are available for PDF download. Students without access to technology may acquire printed materials containing everything needed to complete their courses. Self-paced, independent learners may collaborate with other students using GU's online learning tools and social media.

For further information about the use of technology with GU courses and their availability in electronic format, visit Global University online at www.globaluniversity.edu.

Library Resources

The Global University Library, located at the International Office in Springfield, Missouri, holds resources that support the curriculum of GU programs and may be utilized for general research. It offers more than 25,000 physical volumes, including books, reference materials, periodicals, maps, microfiche, audio and video materials, and vertical files.

For undergraduate and graduate students, CREDO Reference, Academic Search Elite, and American Theological Library Association (ATLA) databases, which provide access to thousands of e-books, peer-reviewed journals, and general reference resources, are available via the Library website at <https://libguides.globaluniversity.edu/librarymain/>.

Due to lack of research requirements, Berean School of the Bible students cannot access proprietary databases. However, thousands of freely available resources are available through the Library website.

Students may also direct research questions to a reference librarian using the "Ask-A-Librarian" feature. Global University is continually expanding its online information services to support and enhance the distance learning experience.

OBJECTIVES AND DESIGN

Global University academic programs are provided by the Undergraduate School of Bible and Theology and the Graduate School of Theology. A wide range of specific programs are available: certificates and diplomas as well as associate of arts, bachelor of arts, master of arts, master of divinity, and doctor of ministry degrees. For information about graduate degree programs, see the current graduate catalog.

The programs of the Undergraduate School of Bible and Theology are designed for ministers, ministerial students, and laypersons who are serious in their desire for a biblical education. The degree programs are open to all with a high school diploma or its equivalent. For those with previous undergraduate training, advanced academic placement through transfer of credit is possible.

Degree Programs

Unless otherwise stated in the specific program description an undergraduate program of study requires that a minimum of 30 credits be earned through the completion of Global University courses. Graduates interested in completing more than one program of study should ask for advisement before submitting an application for a new program. Graduates may not enroll in programs of study that are similar to previously completed programs.

To complete additional programs of study graduates must earn credits that were not part of their previous program. The minimum number of additional credits needed is at least 25 percent of the credits required for the new program of study. The actual number of new courses needed to complete an additional program will vary depending on the courses completed and transfer of credit awarded in previous programs of study.

The overarching goals for the degree programs include demonstrated achievement in the following areas. After successfully completing a degree program, the student will:

- Demonstrate a comprehensive knowledge of the Old and New Testaments.
- Demonstrate a comprehensive knowledge of the theological principles that are foundational to Pentecostal Christian faith.
- Develop and demonstrate written and oral communication skills.
- Apply relevant biblical and theological principles in local ministry contexts.
- Exhibit an awareness and appreciation of the various areas of general education: humanities; fine arts; social, behavioral, and natural sciences; mathematics; oral and written communication; and computer skills.
- Continue the appreciation and practice of lifelong learning.
- Participate effectively in Christian ministry.

The strategies used to assess the achievement of these goals include examinations, service learning requirements (SLRs), collateral reading or writing assignments (CRAs/CWAs), course-specific projects, and graduate follow-up surveys.

Bachelor of Arts Degree

Global University presently offers three bachelor of arts (BA) degree programs: Bible and theology, Christian education, and intercultural studies. The BA in Bible and Theology is designed to provide the educational background needed by those preparing for pastoral or preaching ministry. The BA in Christian Education will prepare those expecting to minister in church-related instruction or in the administration of Christian education. The BA in Intercultural Studies is designed for those who plan to serve as missionaries. This degree has a basic Bible and theology component with emphasis in cross-cultural communication and Christian missions.

The BA degree is a 120-credit program requiring a minimum of 30 credits earned through Global University, 15 of which must be in the student's major.

Students who completed their secondary education from a qualifying international education system may be eligible for up to 30 credits of advanced standing. Individuals who previously earned a bachelor's degree from another accredited school may be eligible for at least 60 credits of advanced standing.

Associate of Arts Degree

The associate of arts (AA) degree may be earned by students who complete 60 credits and meet the stated program requirements. A minimum of 15 credits must be earned through Global University courses. This degree provides an introduction to the knowledge and skills required for ministry and also represents the halfway point for those desiring to continue studying toward a BA degree.

Diploma and Certificate Programs

The overarching goals for the diploma and certificate programs reflect the purposes and requirements of these programs not designed to lead to a degree. After successfully completing a diploma or certificate program, the student will:

- Demonstrate a requisite knowledge of the Old and New Testaments.
- Demonstrate a requisite knowledge of the theological principles that are foundational to Pentecostal Christian faith.
- Develop and demonstrate written and oral communication skills.
- Apply relevant biblical and theological principles in local ministry contexts.
- Continue the appreciation and practice of lifelong learning.

- Participate effectively in Christian ministry.

The achievement of these goals is assessed through examinations, service learning requirements (SLRs), collateral reading or writing assignments (CRAs/CWAs), and course-specific projects, if applicable. For diploma programs, graduate follow-up surveys are also used. The diploma and certificate programs are ideal for those who do not plan to pursue a BA degree.

Students pursuing a diploma must complete at least one quarter of the program (or 15 credits for the 60-credit diploma and 23 credits for the 90-credit diploma) enrolled through GU. Students pursuing a certificate must complete at least 15 credits enrolled through GU for the 30-credit certificate and at least 10 GU credits for each of the 16-credit certificates.

Diploma in Ministry

This 60-credit diploma is specifically designed for individuals desiring a basic Bible program in preparation for ministry. Individuals studying to fulfill educational requirements for ministerial credentials should refer to “Courses Meeting Assemblies of God (AG) General Presbytery Requirements (USA only)” in this catalog. Global University does not issue credentials. All ministerial candidates should contact their Assemblies of God district office to determine the appropriate sequence of courses for fulfilling credentialing requirements.

Diploma in Bible and Theology

This three-year, 90-credit diploma provides a broader base in Bible and theology.

Certificate in Bible and Theology

This certificate is designed for those who want to study in the various schools of Global University but do not want to study for a degree. However, all of the credits earned for this certificate can be transferred to a degree program.

Undergraduate Certificates

Students desiring an intermediate goal may work toward the completion of one or more undergraduate certificates. Each undergraduate certificate provides studies in a specific area of Bible, theology, or church ministries. An undergraduate certificate is also available in general studies. Undergraduate certificate studies are an excellent way to acquire academic preparation in a particular subject-matter concentration. For a description of the course requirements for each undergraduate certificate, see “Undergraduate Degree Programs of Study.”

Students Currently Enrolled

To maintain an active status, degree-level students must enroll in at least one course per calendar year (January–December). Active students who began their degree studies with Global University prior to the issuance of this catalog may continue to follow the program requirements under which they enrolled. However, they may elect to modify their programs to meet

the course requirements listed in this catalog. If inactive students desire to enroll in a course, they must reapply under the current program of study. Any transfer of credit previously awarded from other schools will be reevaluated to determine if it is applicable to the current program of study. Inactive students who want to reapply must have at least a 2.00 GPA.

Admission into a Degree Study Program

The basic requirement for full admission into an undergraduate program of study is possession of a high school diploma or its equivalent. Under certain circumstances, provisional admission may be granted to students who are unable to provide proof of secondary education. Students who receive provisional admission may study up to 18 credits. A provisionally accepted student must maintain a minimum GPA of 2.00. A provisionally accepted student who wants to continue after completing 18 credits must qualify for full admission or receive special approval from the dean.

High School Students

High school students under the age of 18 must submit parental consent as well as their current high school transcript. Students must receive a grade of 73 percent or higher on their first GU course to enroll in subsequent courses. Students may also study for dual credit or concurrent/dual enrollment..

Dual Credit

Dual credit allows college courses taken at Global University to count toward high school credit. Students must submit written permission from their high school acknowledging they will accept GU courses for dual credit (included in U-18 application).

Concurrent/Dual Enrollment

Concurrent or dual enrollment allows a high school student to enroll in college-level courses while also being enrolled in high school coursework. Credits earned at Global University may or may not count toward a student’s high school diploma. More information can be found on the Under-18 application form online at <https://globaluniversity.edu/admissions/become-a-student/applications/>.

Enrollment in Individual Courses

A student may study individual courses for undergraduate credit without declaring a program of study. Students who declare a program of study must meet the admission requirements of their desired program. Students should keep in mind the courses are presented at a university level. Should a student desire to pursue a program of study with Global University, a high school diploma or its equivalent is required. Students may not enroll in more than 18 credits concurrently or during any six-month period without approval from the dean. Students with a GPA below 2.00 may be limited to fewer enrollments during any six-month period.

Selecting an Undergraduate Program of Study

If you are a first-time student and are unsure what program of study to pursue, consider these questions:

1. What program of study would best help you achieve your long-term goals?
2. What program of study requires courses with topics that interest you?
3. Have you completed degree-level courses from other schools that might be applied as transfer-of-credit for specific Global University courses?

You may also select an undeclared program of study. This allows you to enroll in courses at random but does not give you the ability to earn a diploma or degree. To do so, you must change your undeclared program status by selecting one of the programs listed in the most current undergraduate catalog. You are expected to declare a program of study by the time you have completed 18 credits.

When you have chosen a program of study, you must remain an active student in order to complete that program. To maintain an active status, degree-level students must enroll in at least one course per calendar year (January-December). To ensure your status remains active, it is recommended that you enroll in at least one course per six months. To reactivate an inactive-student status, you must submit a new application indicating you are reactivating and enroll in a new course. You must then fulfill the requirements of the current program of study to earn a degree. For instance, if you declared a program of study in 2004 but became inactive, when you reactivate your student record, you can no longer graduate by completing the requirements for your 2004 program of study. You must complete the requirements for the current program of study. Any transfer of credit previously awarded from other schools will be reevaluated to determine if it is applicable to the current program of study.

Application and Enrollment Procedures

Global University's International Office in Springfield, Missouri, is the enrollment office for students residing within the United States. Most students residing outside the United States will enroll and receive student servicing through their country's Global University network office. If a student's country of residence does not have a network office, the student may enroll and receive student services through the appropriate regional office or through the International Office. Any student who enrolls through the International Office has the option to submit the student application and order courses online by emailing studentinfo@globaluniversity.edu. National or regional office students must process all student applications and course enrollments through the appropriate network office and not through the Global University website.

New Student Orientation/GUO 1011 Essentials of Learning at Global University

Undergraduate students enrolled in any Global University degree program will be required to complete GUO 1011 *Essentials of Learning at Global University*. (Students enrolling through a Global University network office should enroll in GUO 1001 *Orientation to Global University Learning*.)

This course is designed to assess students' prior learning and prepare them for a successful experience with Global University. It must be taken as a student's first or second GU course. A student may be exempted from GUO 1011 under one or more of the following conditions:

- The student is reactivating and has completed at least 18 Global University credits with a GPA of 3.00 or above.
- The student is active and applied under a previous catalog when GUO 1011 was not required.
- The student is studying for personal enrichment or plans to transfer credits to another university (and not complete a Global University program).
- The student has completed GUO 1002 *Orientation to Global University Learning*.

United States Residents Enrolling with Global University

United States residents will submit their undergraduate applications and course enrollments through the International Office according to the following procedure:

1. Apply and enroll online at Global University's website, or call 800.443.1083 or 417.862.9533 to contact a Student Services representative at the International Office.
2. Submit the application form with the required payment to the International Office. Note: Student applications received without payment cannot be processed.
3. Submit course orders either with the application or after the application has been processed and you have received an acceptance letter. Note: Students may not place an undergraduate course order without submitting an undergraduate application. Furthermore, students may not enroll in more than 18 credits concurrently or during any six-month period without the academic dean's approval.

Students Residing Outside the United States

All students have the option to enroll and receive student services from the International Office. However, to provide better student servicing and minimize the cost of shipping fees, it is recommended that students residing outside the United States enroll through their country's network office or the appropriate regional office. To apply and enroll through your network office, follow this procedure:

1. Obtain an undergraduate application and a Subject Enrollment Form (SEF) from your local network office. Note: students who enroll through a network office may not

submit an application or request course enrollments via Global University's website.

2. Complete and return the application form with the required payment to your network office.
3. To enroll in courses, complete an SEF by writing the correct course numbers and names as they appear in this catalog. Then submit the completed SEF with the required payment to your network office. Students may not enroll in more than 18 credits concurrently or during any six-month period without the academic dean's approval. The network office will assist you and provide you with the necessary course materials. To ensure quality student servicing and consistent communication, all student requests and questions should be communicated to your network office.

Transfer of Credit

Global University accepts transfer of credit from other institutions of higher learning with recognized accreditation. Each course considered for transfer of credit must be compatible in content with the Global University undergraduate degree or diploma program chosen by the student and must have a minimum grade of "C–" (70 percent) or its equivalent. Courses with a grade of "pass" must be certified by the school as being equivalent to Global University's standard for a "C–" or higher to be accepted. Transfer credit (or advanced standing) may not exceed three-quarters of a degree or diploma program, or one-half of a certificate program.

Transfer credit from unaccredited institutions may be considered on a case-by-case basis, following a detailed evaluation of the institution by the Undergraduate School of Bible and Theology Dean and School Evaluation Committee. Contact Admissions and Records for more information.

Students should request official transcripts from all institutions they would like evaluated. A transcript is official when it is sent from the original institution directly to Global University in a sealed envelope. Global also accepts transcripts sent electronically from a valid electronic transcript service such as Parchment, JST, or National Student Clearinghouse. All transcripts and other pertinent documents should be received in the Registrar's office shortly before or at the time the application is submitted. Students who plan to take courses from another school to transfer back to finish a Global University degree must request that an official transcript be sent to Global University BEFORE completing their last Global University course.

Transcripts and official documents must be in English, Spanish, or French or be accompanied by an official translation into English. Where official transcripts are unobtainable due to circumstances beyond the student's control, Global University may accept for review a valid affidavit that substantiates the student's academic record.

In all cases, Global University reserves the right to determine whether it will accept transfer credits from another academic institution.

Transfer of credit previously awarded will be reevaluated for inactive students who reactivate into a current program of study and for active students who change to a different program of study. Only transfer of credit that is applicable to the current program of study will be awarded and appear on student transcripts.

Advanced Standing for Students in a Qualifying International Education System

Global University offers advanced standing for students who have graduated from a qualifying international educational system (outside the North American system) that endorses a three-year bachelor's degree program. Qualifying students receive 30 credits of advanced standing toward general education requirements based on proof of the appropriate credential. All other BA requirements must be fulfilled. Contact Admissions & Records for more information.

Advanced Standing for Students Seeking a Second Bachelor of Arts Degree

Global University offers advanced standing for students who have previously earned an accredited bachelor's degree from an outside institution. Students must present official transcripts (or academic records) showing they have completed a first degree from an accredited institution. Qualifying students receive at least 60 credits of advanced standing toward general education requirements and general electives. All other program requirements must be fulfilled. Contact Admissions and Records for more information.

Note: students who do not present official proof of a first degree will not receive any advanced standing and must complete the full BA degree requirements.

Prior Learning Assessment

Prior Learning Assessment refers to the process of awarding college-level credit for prior learning that occurred outside of a traditional college or university setting. Examples of prior learning include workplace/ministry experience, professional certification, military training, university-level equivalency tests (e.g., CLEP), and other postsecondary experiences.

Credit for prior learning is determined by the dean and/or designated faculty, based on a thorough evaluation of a student's Prior Learning Portfolio. The Prior Learning Portfolio must adequately demonstrate evidence of prior learning experiences and explain how that prior learning is equivalent to a specific undergraduate course. Forms and detailed instructions for completing a Portfolio can be obtained from your Global University enrollment office.

The maximum amount of credits for prior learning may not exceed one-fourth of the total credits required for a degree

program. In addition, prior learning credit may not substitute for the minimum required credits that must be enrolled with Global University to earn a degree.

College-Level Examination Program (CLEP)

Global University allows transfer credits for subject and general examinations of the nationally administered College Level Examination Program (CLEP). The acceptance of these credits is based on the student's having earned the credit-granting scores recommended by the American Council on Education.*

*The combined total of prior learning credit and CLEP credit accepted may not exceed 30 credits.

Student Advisement

Global University strives to provide as much assistance as possible in planning the educational programs of its students. However, it is the students' interest and self-discipline that determine success in meeting educational goals. Certain courses have prerequisites or recommended sequences that students are encouraged to follow. These are noted in the "Course Descriptions" section of this catalog.

Students can view recommended course sequences for all undergraduate programs in the Undergraduate Degree Programs of Study section of this catalog. For course advisement, students may also call 800.443.1083, option 4, or email degreeaudit@globaluniversity.edu.

Student Number and Student Card

A student is issued a student number when his or her application is processed. The student number must be used on all coursework and on all correspondence or electronic communication between the student and the Global University International Office. Under no circumstances will the student be permitted to take an examination or will credit be given for a course without an assigned student number. Upon request, a student card will be issued to any student enrolled in a Global University undergraduate course. This card will allow the student access to any institutional library that cooperates with Global University as a host school or has signed a library agreement with Global University. These host schools are found in most countries where Global University has undergraduate students. If you are a student residing outside the United States, ask your network representative for a list of cooperating libraries in your country.

The minimum passing score for any individual course is a score of "D–" (60 percent). A minimum grade point average (GPA) of 2.00 is required to earn a degree or diploma.

Academic Performance

Students' academic performance must demonstrate they are benefiting from their undergraduate studies. They should incorporate and practice good study habits that will help ensure they master the learning objectives of each course. It is recommended that all students re-enroll in and pass previously failed courses before enrolling in new courses. Students who have not submitted proof of a high school diploma or its equivalent may not enroll in more than 18 credits if their GPA is below 2.00. Inactive students who want to reapply must have at least a 2.00 GPA.

Students with multiple course scores below 73 percent should request counseling from their local enrollment office and explore ways to improve their academic performance. In some cases students with a GPA below 2.00 may be required to pass previously failed courses before enrolling in new courses. They may also be limited to enrolling in fewer than three courses concurrently or during a six-month period. Students who are unable to consistently maintain a 2.00 minimum GPA may be withdrawn from the Undergraduate School of Bible and Theology. Those students are encouraged to pursue other educational options with less academic rigor, such as Berean School of the Bible programs.

Credit System

Since academic systems vary from country to country, some students may not be familiar with the system of credits as a measure of progress in an academic program. Global University requires that students complete 120 credits to earn a bachelor of arts degree. The “Course Descriptions” section lists the number of credits each course is worth. To standardize transfer of credit between schools, Global University uses the standard of study-time equivalencies as one factor in computing the credit value of its courses. In this system, a credit (sometimes referred to as a semester credit hour) represents the equivalent of 15 hours of formal classroom study, including examinations, plus 30 hours of study outside the classroom. Therefore, one Global University credit is equivalent to 45 hours of study.

Global University’s courses are designed to require this standard amount of study for the average student. That is, a two-credit course requires 90 hours of study time, and a three-credit course requires 135 hours of study time. The actual time a student may spend in study will depend on his or her background preparation for the course. Global University also uses these study-time equivalencies as one factor in computing transfer of credits from other schools.

Transfer of Global University Credit

Global University graduates have been accepted into graduate programs at a number of institutions in the United States and elsewhere. However, it is the student’s responsibility to verify the applicability of Global University credits toward any educational goal he or she may have. A student who enrolls in a Global University courses and intends to transfer credit to another institution must contact the receiving institution to verify that the institution will accept the transfer credits.

Requesting Global University Transcripts (Degree-level)

Students may view and print their Student Subject list via the student portal, accessible through the GU website. A transcript of degree-level coursework completed through Global University is available upon request. Transcripts will only be mailed or emailed with the student’s consent.

Please note, a degree-level transcript will list the number of credits transferred from other qualified institutions; however, the individual courses transferred will not appear on the transcript. Grade point averages are determined only on the basis of degree-level courses completed at Global University.

Global University has partnered with the transcript service, Parchment, to issue all official transcripts. Official transcripts are imprinted with the Global University seal and issued only by the Registrar’s Office in Springfield, Missouri. Transcripts can be ordered online at www.parchment.com.

For students who are unable to order online, a Transcript Request Form is available upon request. Students may email or mail requests for this form to the following:

Mail: Global University—Registrar’s Office
1211 South Glenstone Avenue
Springfield, MO 65804-0315 USA

Email: transcripts@globaluniversity.edu

More information regarding the ordering of official transcripts can be found on our website at www.globaluniversity.edu.

Capstone Requirements

All students studying in English must complete a capstone as part of their graduation requirements. These items should be completed when the student is within nine credits of completion or at the time the final exam for their last course is submitted. A degree will not be issued until the capstone requirements have been received and evaluated. Instructions for completing each component can be downloaded from the GU website or mailed upon request. Refer to the following chart for the capstone components required for each respective degree.

Program	Capstone Requirement
Certificates	Capstone not required
Diplomas, AA	Graduate Follow-Up Survey (English and Spanish) Posttest (English and Spanish)
BA degrees	Graduate Follow-Up Survey (English and Spanish) Posttest (English and Spanish) Written component (English students ONLY) Verbal component (English students ONLY)

Graduation Requirements

Undergraduate diplomas and degrees are issued by Global University only after a review of the student’s records and certification that the following requirements have been fulfilled:

1. All required courses have been successfully completed. Note that any transcript being evaluated for possible transfer of credit from another school must be submitted BEFORE the last Global University course is completed.
2. A minimum of 30 credits have been earned through Global University, 15 of which are in the student’s major.
3. Cumulative grade point average (GPA) is at least 2.00.
4. Capstone requirement has been fulfilled.
5. The Global University Registrar’s Office has received the student’s request to graduate after the above requirements have been met.

A student may enroll in only one undergraduate program of study at a time. In the event a student fulfills the requirements for two or more programs of study at the same time, recognition is awarded for the most advanced level only.

UNDERGRADUATE DEGREE PROGRAMS OF STUDY

Global University Independent-Study Textbooks are developed by qualified faculty and instructional design specialists. Learning and teaching principles derived from educational research are incorporated into the design of Global University instructional materials. More than eighty-five undergraduate courses are available for study. Global University curriculum is under constant evaluation, and revisions or additions are made in keeping with the goal of providing the best possible learning experience for students.

Definition of Course and Subject

Global University uses the terms *course* and *subject* interchangeably. For example, BIB 3013 *Genesis* is a three-credit degree program course or subject. Courses (subjects) are the fundamental units of the curriculum. Satisfactory completion of a program is recognized by the awarding of certain certificates, diplomas, or degrees.

Although Global University does not use a standard semester for enrollment, for international transfer its credits are considered semester credit hours. In a traditional semester system, a 3-credit course would require three one-hour lectures per week for at least fifteen weeks. A full-time study program would be equivalent to 12–18 credits per semester. For United States VA students desiring full-time status, a minimum of 18 credit hours per six months is required.

Course Sequences and Prerequisites

The following pages provide the suggested sequence for taking undergraduate courses for each degree program.

It is highly recommended that students follow the suggested sequence. If a course has a prerequisite, a notation is made in the course description section of this catalog. For example, BIB 4143 *Undergraduate Greek I* must be taken before BIB 4153 *Undergraduate Greek II*.

Numbering System for Undergraduate Program Courses

A key to interpreting course numbers follows. Course numbers should be used with the subject names on all order forms, subject enrollment forms (SEFs), and other academic records.

1. The first three letters indicate the academic content area of the course:

BIB	Bible	HSC	Health Science
THE	Theology	LDR	Leadership and Management
MIN	Church Ministries	LIT	Literature
MIS	Missions / Intercultural Studies	MTH	Mathematics
BUS	Business	MUS	Music
COM	Communications	PHL	Philosophy / Ethics
CSC	Computer Science	PSY	Psychology
EDU	Education	REL	Religion
ENG	English	SOC	Sociology
GSC	General Science	SPN	Spanish
HIS	History		

2. The first digit indicates the level of the course.
3. The second and third digits serve as numerical identifiers.
4. The final digit indicates the credit value.

An example is BIB 1043 *The Gospel of John*:

General Education

Curricular Philosophy and Objectives

Global University's curriculum gives students the learning experiences that lead not only to depth of knowledge and skill in the major area of study but also to a complementary breadth of learning. Consequently, the institution designs every degree program to require the student to complete three components: (1) a comprehensive Bible and theology core, (2) a selected major, and (3) a broad general education core. The Bible and theology core provides a basic biblical education for all students. The selected major allows students to prepare themselves according to their individual interests, abilities, and sense of calling. The general education core helps students understand the contemporary world and how to relate to it.

Global University values general education as a foundational, broad-based educational complement to the professional, theological training component. The university recognizes that an understanding of one's own and other cultures and an ability to relate both interculturally and cross-culturally in the contemporary world are crucial to effective ministry. The

general education program prepares students for such ministry by facilitating their enculturation into the global context in which they live and serve and by helping them to understand and appreciate the individual within a complex and culturally diverse world.

The learning experiences offered by the Global University general education program allow students to prepare themselves according to their individual interests and sense of calling, to integrate breadth of learning with the Christian worldview across many disciplines, to develop communication and critical thinking skills, and to cultivate a desire for disciplined personal growth and lifelong learning.

Content Areas

General education courses at Global University are divided into four broad areas: Humanities and Arts, including history, culture, and philosophy; Language and Communication Arts; Natural Sciences and Mathematics, including the health sciences and technology; and Social and Behavioral Sciences, including education, sociology, and psychology.

Broad Program Goals

Global University's faculty believes the general education program should enable students to achieve the following goals:

- Demonstrate mastery of mathematical and quantitative skills necessary for everyday life.
- Use information technology effectively.
- Demonstrate effective written and oral communication skills.
- Describe the historical, sociological, and cultural influences and contexts of the world.

- Demonstrate the ability to derive conclusions from complex information (thereby showing the ability to think critically and analytically).
- Differentiate among the various humanities and artistic expressions of diverse cultures.
- Describe the natural and physical world in which we live.
- Practice the pursuit, evaluation, and application of knowledge throughout life.
- Compare and contrast one's own worldview with the worldviews of others.

Global University offers more than thirty courses in the various areas of general education. Additional courses are being added each year. Students are required to study specific courses in each area and are able to choose other courses as electives. This selection of general education courses exposes students to the disciplines deemed necessary for professional and social interaction. Thus, a practical need drives the general education requirement.

This general education component demonstrates breadth and coherence through variety and promotes critical thinking and creativity through its system of formative and summative evaluation, course projects, collateral reading assignments, and service learning requirements. The institution recognizes the importance of the general education content areas to the development of historical perspective, communication, critical thinking, and quantitative reasoning skills necessary to life in a global society.

BACHELOR OF ARTS DEGREE PROGRAMS

The curricula for the Bachelor of Arts degrees requires a minimum of 120 credits. At least 30 credits must be enrolled through Global University, 15 of which must be in the student's major. Students who plan to continue their studies in graduate school or seminary are strongly advised to complete Greek courses.

Students who completed their secondary education from a qualifying international education system may be eligible for up to 30 credits of advanced standing. Individuals who previously earned a bachelor degree from another accredited school may be eligible for at least 60 credits of advanced standing. Contact Admissions & Records for more information.

DIPLOMA PROGRAMS

Global University offers two diploma programs: a two-year Diploma in Ministry (60 credits minimum) and a three-year Diploma in Bible and Theology (90 credits minimum). At least one quarter of the program (or 15 credits and 23 credits respectively) must be enrolled through GU. The Diploma programs are an ALTERNATIVE to the AA and BA degrees. They are not meant to be a pathway to an AA or BA degree. Though diploma courses may apply to degree programs, be advised that this approach may result in students taking additional credits beyond the minimum required.

Diploma in Bible and Theology

The Diploma in Bible and Theology is focused on biblical/theological education. It offers basic training for practical Christian service. After completing this curriculum, the student will be able to function effectively in a practical or specialized ministry context.

COURSE GUIDELINES AND REQUIREMENTS

Methods of Instruction

Global University uses a variety of methods to meet the needs of its students at all levels of study. Global University students are pastors, evangelists, and national church leaders desiring to continue their ministerial education, as well as those preparing to enter the ministry for the first time. Many students are laypersons seeking the training necessary to work more effectively in their local churches.

Many Global University students study independently, but GU also works closely with several Bible schools for the benefit of their students. Global University endeavors to select the methods appropriate for each type of learning situation. The following are ways students may study with Global University:

1. **Independent Study:** Students may study alone on a personally developed schedule, which minimizes any disruption of their regular routines of ministry, employment, and family responsibilities. Global University courses are designed to meet the needs of independent-study students. An instructor is not required; however, an examining supervisor must administer the final examination.
2. **Guided Independent Study:** In this mode a facilitator interacts with the student to guide and encourage his or her study. If approved as an examining supervisor, the facilitator may also administer the final exam.
3. **Facilitated Courses:** Global University occasionally facilitates courses in conjunction with the program of a GU representative or residential Bible school. Facilitated courses provide an opportunity for students to interact with other students and the facilitator while studying.
4. **Study Groups:** Many Bible study groups use Global University courses. These include church Bible study groups and citywide Bible study projects. Such groups usually take direction from a facilitator, pastor, or other group leader. A study group may also simply allow students study together with some tutorial assistance.
5. **Global University/Residence Bible Schools:** Although primarily designed for independent study, Global University study materials are adaptable for classroom use.
6. **Digital Files:** Students who enroll in Global University undergraduate courses have the option of downloading course materials as PDF files from the Global University website. Digital files allow students to study on personal computers or other electronic devices. Some textbooks required for GU undergraduate courses may be purchased in e-format from other distributors.
7. **E-Learning:** Beginning January 1, 2019, selected courses will be offered via an integrated e-learning format that will allow students to access and complete the courses online.

This method will guide students through the same quality course materials using online tools and resources developed for a more interactive learning experience.

Using Your Global University Materials

Global University's study materials are designed to provide you with direction throughout your course. There are various formats, including a textbook and Study Guide, or an Independent-Study Textbook (IST). These materials include a course introduction that serves to guide the student through the requirements of each specific course.

Completing Coursework

A student should expect to spend 45 hours of total study time/coursework time per credit. This totals approximately 135 hours per three-credit course (though the actual amount of time spent in the course may be more or less depending upon previous education and experiences). In general, a student will read through a lesson, answer questions/do activities, take a self-test, and move on to the next lesson at their own pace (unless studying in a group or school setting). After completing a unit, the student will take a unit progress examination to measure their level of mastery of the material. Most courses also require submission of a written project, a service learning report, and a proctored final examination (or, possibly, split exams). If the course is taken for three credits, it will typically involve reading an additional textbook and completing an additional writing assignment (though some courses only involve an additional assignment). The requirements for each individual course can be found in the course introduction.

Time Limit for Completing a Course

The time limit for completing a GU undergraduate course is six months from the date the order is processed. Students are expected to complete their studies within this prescribed length of time. Courses not completed within the specified time limit are noted on the transcript as incomplete (INC).

Course Examinations

The final examination must be arranged by you, your examining supervisor, and your Global University enrollment office. International students should contact their enrollment office well in advance of the date they want to take the examination. Directly enrolled students should submit proper forms four weeks before their scheduled test date. The final exam is an objective test with no essay questions (available online or via the postal service). The final exam is primarily multiple choice but may include true/false and/or matching. It is the student's responsibility to complete the final examination before the course expiration date. Proper planning is essential.

Note: Some courses have two exams—a midcourse examination and an end-of-course examination—and include notifications that inform the student when to arrange to take each exam.

1. The student is responsible for completing the Student's Request to Take Final Examination form. Directly enrolled students may obtain this form from the Student Packet or IST, the Undergraduate Supplemental Procedures Manual, or Global University's website. International students will find this form in their Student Packet or IST. The final examination in any course may not be taken until the following have occurred:
 - a) A Subject Enrollment Form (SEF) or course order has been received at the International Office.
 - b) A student number has been officially assigned.
 - c) The proper final exam request information has been received by the International Office.
 - d) Arrangements have been made for an approved examining supervisor to administer the final examination.
 - e) All projects and assignments that are part of the final grade have been submitted. For all undergraduate courses (except biblical languages courses), students will not receive course credit or a final course grade if the required SLR has not been submitted.
2. The confidential final examination, with a control number affixed, is sealed and sent by the International Office to the network representative or directly to the examining supervisor. If sent to a network representative, he or she records its arrival and sends it to the Global University examining supervisor.
3. The examining supervisor arranges with the student a time and place for the examination and administers it. The examining supervisor must be present in the room with the student for the entire time the examination is being given. All parts of the final examination must be returned by the examining supervisor to the Global University International Office. Exam supervisors for directly enrolled students must return the final exam, whether completed or not, by the due date stated on the exam. Failure to do so will incur a fee per exam.

Notification of Grades

The Global University International Office scores all examinations. Upon completion of all the requirements of a given course, the grade is forwarded to the student on a Final Grade Report (FGR) form. The grade is permanently recorded at the International Office.

Resubmitting Written Assignments

If a student receives a score of 60–79 points out of the maximum 100 points on a written assignment, the student can request permission to resubmit and attempt to raise his or her score (the maximum grade allowed on a resubmission is 80 points).

If the student receives a score of 59 points or below, they automatically have the option to resubmit the assignment, and the faculty grader should encourage them to do so. However, the student is not required to resubmit the assignment.

Only one resubmission is permitted per assignment (project or CRA/CWA). The maximum grade possible for a resubmitted assignment is 80 points. The resubmission score, whether higher or lower than the original score, will be the final score.

Resubmissions must be received before the course expiration date. Resubmissions received after the six-month expiration date will not be scored. The student must pay the full tuition and re-enroll in the course for the resubmission to be scored.

The Service Learning Requirement (SLR) is graded as Satisfactory/Unsatisfactory. If a student receives an Unsatisfactory, they will be required to redo and resubmit the SLR. A course is not complete without a Satisfactory SLR.

If You Do Not Pass a Course

Global University is committed to fostering a high level of success in learning for each student. The course materials are designed to enhance the possibility of success for students who carefully follow the instructions given and complete all learning exercises.

To qualify to retake your final exam, you must

1. have received a final grade for the course below 73 percent and scored less than 73 percent on the final exam;
2. contact your network representative or the International Office to retake the exam (a retake fee may apply); and
3. complete the retake exam before the course expiration date. Retake exams completed after the expiration date will not be scored. The student must pay the full tuition, re-enroll in the course, and submit a new final exam request.

Before taking the second examination, review the course materials and attempt to correct learning inadequacies. The score received on the retake examination, whether higher or lower than the original exam score, is the final score. If you fail to earn a passing score through reexamination and you desire to take the exam a third time, you will be required to re-enroll in the course and pay the applicable fees to receive credit.

NOTE: Retakes will not be permitted for examinations in the mathematics courses—MTH 1013, MTH 1103, MTH 2503, and MTH 3303—due to the unique design of these courses and their examinations.

BIB 4053 Corinthians (3 credits)

How does one relate the Bible to contemporary church life? In the *Corinthians* Study Guide, the author helps the student do this through

an in-depth study of the Corinthian letters. He begins with exegesis, teaching the student how to use this method of Bible study to understand the problems faced by first-century Corinthian believers. Then, for each major problem Paul dealt with, the author suggests a possible solution or an interpretation that can be applied to the church today. This course is especially helpful to those who desire to preach and teach as it demonstrates a methodology of Bible interpretation. An overview of 2 Corinthians is also included in this study.

BIB 4072 Daniel and Revelation (2 credits)

This course is a study of biblical prophecy that concerns end-time events. The course covers passages of other Old and New Testament books in addition to Daniel and Revelation when such passages help promote a better understanding of biblical prophecy. The unit titles point out the progression of events during the end time. In the final unit, biblical prophecy moves beyond time into eternity. Christ's second coming is the central theme of the course. The authors also emphasize that the student be ready for Jesus' coming and encourage others to prepare for His coming (1 John 3:3).

LIT 1212/3 Old Testament Literature: His Story (2 or 3 credits)

This course is a study of beginnings. It shows how the ancient, inspired Hebrew writers expressed in narrative form a record of God's saving deeds from the beginning of God's work with all humankind. From these narratives, students can see God's unfolding plan of redemption through what Christians believe to be God's revelation. Concepts like covenant, priesthood, law, trust, faithfulness, and righteousness come from the Old Testament. Such knowledge is basic to understanding the New Testament. The Old Testament is the only Bible Jesus, His followers, and the early believers had. Storytelling is one of the oldest methods of communicating from one generation to the next. Learn to tell God's story from the record of the Old Testament and be equipped to pass it on to your generation and those to follow.

Students enrolled in the course for 3 credits must complete a CRA.

Materials required:

LIT 1312/3 The New Testament as Literature (2 or 3 credits)

This course is intentionally a literary approach to understanding the New Testament and is not intended to be a survey course. More attention is given to understanding literature—especially divinely sponsored literature—than is given to surveying the specific contents of each book. The overarching goal is to prepare students to appreciate and understand the New Testament more fully in its divinely ordained original context. The intent is that this understanding will better equip students to be faithful in interpreting the Word more closely to the authorial intent.

(This course has replaced LIT 1303 *New Testament Literature*, formerly titled BIB 1023 *New Testament Survey*. Students who successfully completed either LIT 1303 or BIB 1023 cannot enroll in and receive credit for LIT 1312.)

THE 1012/3 Pneumatology (2 or 3 credits)

The person, work, gifts, and ministry of the Holy Spirit are examined in this biblical study. Among the questions discussed from both the Old and New Testaments are these: Who is the Holy Spirit? What is the baptism of the Holy Spirit? How do I live a Spirit-filled life? Students are encouraged to apply these and other related biblical teachings to their own teaching and preaching ministries.

THE 1032/3 God and Angels (2 or 3 credits)

This course attempts to present a broad biblical view to help the student better understand the nature of God and angels. The course teaches that biblical theology clearly includes all people in God's plan of redemption and that an unbeliever will be redeemed when he or she believes and accepts God's plan of salvation. The study of angels is designed to give believers a more complete knowledge of the nature, power, and activities of angels.

Man and Sin is an introductory study of the biblical doctrines of the origin and nature of humankind and of the problem of sin and its effects. Students will learn to appreciate these subjects from a biblical, systematic, and, to a lesser extent, historical perspective. The course emphasizes biblical interpretation from the view of evangelical Christians, but this position is understood against the backdrop of predominant non-Christian worldviews.

The doctrine of salvation—the work of Christ in bringing lost humanity into fellowship with God—is the focus of *Soteriology*. This doctrine is treated in a logical progression, a kind of order of salvation. The study includes the doctrines of repentance, faith, conversion, regeneration, justification, adoption, sanctification, and prayer in the life of a Christian. The author carefully analyzes biblical passages relating to salvation and evaluates historical and contemporary views of salvation. The twelve lessons stress applying salvation truths personally and sharing them with others.

THE 4032/3 Christology: Jesus, Son of God in the Spirit (2 or 3 credits)

The Christian faith rests entirely on one's confession that Jesus Christ is the Son of God and Lord over the nations in the power and presence of the Holy Spirit. This course will discuss what it has meant for Christians to confess Jesus as the Christ throughout church history, how Western philosophy and culture have impacted this confession, and what is necessary for Christians today to be faithful to that confession in their own contexts and cultures. Recent trends in theology, philosophy, biblical studies, and modern culture call for a renewed emphasis on the biblical narrative in a person's confession that Jesus is the Son of God. This course will show how the biblical narrative

determines meaning for the church's faithful witness to Christ's lordship, its proclamation of the gospel, and its making of other disciples. (This course has replaced THE 2403 *Christology*. Students who successfully completed THE 2403 cannot enroll in and receive credit for THE 4032/3.)

MIN 1052/3 The Work of the Pastor (2 or 3 credits)

This course focuses on the pastor's call to and preparation for Christian ministry. The author examines the relationships vital to successful ministry and reviews the pastor's primary responsibilities. Based on the books of 1 and 2 Timothy and Titus, this course enables students to recognize and apply biblical principles to different situations they face in a local congregation. Specific principles treated relate to the selection of church leadership, the discipline of church members, and guidelines for church worship. Since the study focuses on the pastor's call and spiritual life as well as pastoral duties, it emphasizes both being and doing.

MIN 1092/3 Introduction to Pastoral Counseling (2 or 3 credits)

Most students have noticed that people around them have emotional, spiritual, economic, and physical problems. Even the most persuasive sermon may not be heard by someone with serious personal problems. The Christian student, layperson, pastor, or religious worker must find ways to help people with their problems. *Introduction to Pastoral Counseling* is a look at the different perspectives from which pastoral counseling may be seen. It emphasizes the necessary steps in preparing to become a pastoral counselor and gives attention to counseling's legal and practical ramifications. It also examines some of the issues faced by the pastoral counselor, seeking to find a balance between the clinical and the spiritual, with the Bible as the final authority. This course investigates some of the current approaches to counseling and sets guidelines for counseling settings and sessions.

Students enrolled in the course for 3 credits must complete a CRA.

MIN 1102/3 Great Commission Strategies (2 or 3 credits)

This course establishes a biblical theology of the Great Commission. It presents an in-depth study of evangelism and discipleship principles that are universal in their application. Important elements of *Great Commission Strategies* include the nature of the gospel message, the biblical

definition of *discipleship*, and the methodology of Jesus. Challenges facing the church in multiple ministry contexts are also explored. Finally, the course integrates evangelism and discipleship, presenting them as two sides of a single task.

MIN3073 Communicating Christian Faith in a Pluralistic Society (3 credits)

In increasingly pluralistic societies, effectively reaching people for Christ requires churches and believers to equip themselves to reach individuals who have different kinds of personalities and worldviews. This course develops five basic paths to Christian faith based on different ways people prefer, consider, and confirm spiritual reality: seeing its demonstration through the community of faith, understanding its relevance for individual needs, understanding its relevance for societal needs, experiencing its reality, and seeing the evidence for its validity. The second half of the course familiarizes students with the four world religions, besides Christianity, with the largest number of adherents: Islam, Hinduism, Buddhism, and folk religions—and the contemporary forms these religions have taken. It also examines the three most common Western worldviews—modernism, postmodernism, and alternative spiritualities. Each lesson provides recommendations from ministers and missiologists for reaching the adherents of these religions and worldviews.

Special Courses

***80 Directed Reading** (2 or 3 credits)

This is a special study under the direction of a Global University adviser in some area of interest to the student that is relevant to his or her academic program. A proposal for the directed reading course, detailing the books to be read and project to be completed, must be submitted to the International Office for approval by the Dean of the Undergraduate School of Bible and Theology. The course number will vary by the division of study (Bible, Theology, Church Ministries, Intercultural Studies, or General Education) and the credit hours assigned to the project.

***956 Thesis** (6 credits)

A bachelor's thesis is written under the direction of a Global University adviser. Students must be within six credits of completing all coursework required by the degree program before submitting their thesis proposal. Students must submit their enrollment for the thesis at the same time as they submit the thesis proposal. The thesis proposal must be developed by the student and approved by the Dean of the Undergraduate School of Bible and Theology before enrollment in this course is permitted. Once the thesis proposal is approved, students will have twelve months to submit the final copy of the thesis. Write to your Global University representative for further information.

Note: Global University may use the thesis for archives, research, and academic example both in hard copy and electronic formats, including posting the thesis on the Global University Library website for use by students, faculty, and other registered users. A student has the option to grant written permission for any purpose other than those listed. All other copyright privileges relating to the thesis belong to the student.

***Special Projects** (1, 2, or 3 credits)

These are individualized activities using special readings and/or research techniques to meet some unique need in the particular division of study. Any student desiring to do a special project must make a proposal to the Dean of the Undergraduate School of Bible and Theology. Up to three credits may be earned. The work must be done in a specific academic discipline, such as Bible (BIB409*), theology (THE402*), church ministries (MIN406*), or intercultural studies (MIS406*). The last number in the course code for the special project reflects the assigned number of credits that can be earned; for example, BIB 4093 earns three credits.

* The subject area of the directed reading, thesis, or special project determines the prefix attached to the course number; for example, MIN4803 indicates a directed reading in the subject area of ministry.
